Section 1: Welcome

Welcome to the Middlebury College Survey of Individual Behavior in Vermont. Your participation in this survey and careful consideration of each question are important keys to its success. All of your responses will remain strictly confidential.

This survey will take about half an hour to complete. Upon completion of the survey, you will be entered into a lottery to receive a cash payout. The amount of money you might earn will depend on the decisions you make in the first part of the survey. Please note that we will only enter you into the lottery if the survey is filled out completely.

Please read the following consent statement and check the circle to indicate your agreement:

I freely and voluntarily consent to be a participant in this research project. I understand that the purpose of this research is to examine individual behavior. To this aim, I will be asked to fill out a survey and make decisions with economic consequences. I understand that I am free to discontinue my participation at any time without consequence. I understand that all my responses will be confidential, that any identifiers will be removed, and that only Dr. Jeffrey Carpenter and his research assistants will have access to these data. I further understand that information from all the participants will be grouped together to provide only general information about adult behavior. I understand that if I would like more information about this research, I can contact Dr. Jeffrey Carpenter, Associate Professor of Economics, at Middlebury College (802-443-3241).

☐ I have read, and I understand the above.
Section 2: Splitting $100

We begin the survey with a three-part decision-making task that involves real money. In this task you will allocate $100 between yourself and a charity of your choice. You will simply decide how much of the $100 you want us to send directly to you and how much you want us to send to the charity. The funds for this part of the survey have been provided by the National Science Foundation.

We expect that 500 people will respond to this survey. When we have collected 500 responses we will randomly pick 50 people and implement their decisions. This means that you have a 1 in 10 chance of having your choice implemented. In other words, for 1 in 10 people we will send you and/or the charity that you select actual money. Therefore, you should consider your choices carefully.

The first thing that you will do is choose a charity. Then you will choose how to allocate $100 between yourself and the charity that you picked. If you are one of the 50 chosen participants, your choice will be implemented and you and/or your charity of choice will receive the amounts of money that you have selected.

Part A:

1. Please choose the charity that you want to receive your donation. Pick one of the following charities or write in a charity at the bottom:
   - American Red Cross
   - United Way
   - Vermont Public Radio
   - Amnesty International
   - American Cancer Society
   - Doctors without Borders
   - United Service Organizations (USO)
   - UNICEF
   - Vermont Land Trust
   - Humane Society of the United States
   - Habitat for Humanity
   - The Nature Conservancy
   - American Diabetes Association
   - Other: ________________________________________________

Part B:

Choose the amount of money that you want us to allocate to the charity of your choice. The remaining money will be sent in the form of an anonymous VISA gift card directly to you.

1. Allocate ________________ of the $100 to my charity of choice and send the rest to me.
Part C:

We are interested in how much you think other people would donate to a charity.

1. Of the $100, how much do you think that any random participant will donate to a charity? __________

2. Of the $100, how much do you think that your mother would donate to a charity? __________

3. Of the $100, how much do you think that your best friend would donate to a charity? __________

End of Section 2

We will now ask some short questions about you and your attitudes. Please remember that you must complete all pages of this survey and reach a final page that says “Finished!” to be entered in the drawing for money.
Section 3: Attitudes

Part A:
On the following pages there are phrases describing people's behaviors. Please use the rating scale below to indicate how accurately each statement describes you. Describe yourself as you generally are now, not as you wish to be in the future.
